# FAQ

## 1. Why is this considered an Environmental Education project?

Because the most powerful way to educate and motivate people is by example.

## 1. Why is Women the focus of the project?

Women have a deeper connection to the environment that goes beyond ecofeminism. For some time now, women were created under the trend that it is necessary to keep your dreams, actions and projects silent in the world. This project would like to change that narrative and empower these women by supporting their causes.

## 1. What problem is this project trying to solve and how?

To solve the problem of environmental illiteracy and the invisibility of women leaders around the world by

- Establishing bridges, partnerships with organizations, institutions, sponsors and leaders around the world and
- Using digital platforms and wide-ranging social networks.

## 1. How is Heroines of Earth different from any other project?

The uniqueness of the project was first created by environmental leaders passionate about eradicating environmental illiteracy in the world, in addition to giving visibility to women environmental leaders around the world, of any age using an innovative mapping tool.

## 1. What is “Heroines of Earth” in one sentence?

An environmental education project that has the goal to eradicate environmental illiteracy and the invisibility of women leaders around the world by sharing their stories and supporting their projects, connecting people and institutions around the world.
